

CTC Banding Cart 601

Our Banding Carts are engineered to be ergonomically safe and extremely mobile for any type of industry where plastic or steel banding by hand is required. These carts are set up to use the 3 inch steel and 6 inch plastic banding coils with the standard 16 inch core. Our patented three-wheel design allows for a complete 360 degree rotation that fully eliminates having to tilt the cart thus eliminated potential injuries or equipment damage.

Key Features:

- Standardized 16" core - 6" wide banding spool
- Works with 3" and 6" coils
- Ergonomic design
- Large rubber coated wheels for easy mobility
- 360° turning radius
- Safe - no tilting required
- Tool tray

Other Features Include:

DARK MATTE GRAY STANDARD COLOR (CAN BE CUSTOMIZED)

A LARGE FLAT SURFACE AREA

HEAVY DUTY STEEL CONSTRUCTION

BANDING FEED CLIP

ACCEPTS 3 INCH STEEL AND 6 INCH POLY WITH 16 INCH CORE
